

Hospital Management System - QA, Testing & DevOps Strategy

Testing Strategy

- Unit Testing
- Integration Testing
- API Testing
- Security Testing
- Performance Testing
- User Acceptance Testing

Automation Framework

- UI Automation using Playwright.
- API Automation using Postman/Newman.
- CI integration with Jenkins/GitHub Actions.

DevOps Pipeline

- Automated build and deployment.
- Docker image creation.
- Kubernetes deployment.
- Monitoring using Prometheus and Grafana.

Risk Areas

- Patient data privacy.
- Concurrent billing transactions.
- Doctor schedule conflicts.
- High availability requirements.
